**CD&RS** – Your Committee, having under consideration recommendations contained in the 2014 Homegrown Minneapolis Food Council's Third Annual Report requesting City Council support for the Food Council's land access policy goals related to urban agriculture, as follows: a) extend the lease terms for City-owned parcels to greater than one year, with a preferred minimum of five years; b) allow commercial growers to lease or purchase City-owned parcels, with the understanding that community gardeners would have priority access; and c) expand total number of City-owned lots available for urban agriculture lease or sale, now recommends that Department of Community Planning and Economic Development staff be directed to review the vacant property list to determine which parcels are developable based on economic conditions and lot size and thereupon develop a set of policy recommendations regarding the Food Council's land access policy goals, to present to the Community Development and Regulatory Services Committee no later than July 31, 2015.

Certified as an official action of the City Council:
